RAYMOND G. KARATY, CPA, PSA  
BUSINESS ADMINISTRATOR/BOARD SECRETARY

March 22, 2017

Dear Parents and Staff:

The results of the lead levels in the drinking water for Franklin, Long Memorial, Helen I. Smith and Washington Schools have been received. The water fountains and sink that had lead levels above the acceptable levels were the same ones noted back in the Spring of 2016. Those water fountains have been disabled since the Spring of 2016 and the nurse at Washington School uses bottled water for medications.

We are waiting for results from two (2) water fountains at the high school that had filters installed. If the results are under the allowable limits we will begin to install filters on all of the affected water fountains and nurse's sinks.

All reports and correspondence can be found on the district's website, [www.saddlebrookschoools.org](http://www.saddlebrookschoools.org) under Departments/Buildings and Grounds/Results from Lead Testing in Drinking Water.

Sincerely,

Raymond G. Karaty  
Business Administrator/Board Secretary
